

ATMOS

STEAM CLUB

Operator Guide

Booking · Reception · Door scanner

Three places. Three URLs. Two tablet passwords.

URLs & access

WHO	URL	HOW TO LOG IN
You (manager)	<code>admin.trypranaextract.com</code>	your existing admin login
Reception desk	<code>reception.atmos-steam.com</code>	password <code>pass123</code>
Door scanner	<code>book.atmos-steam.com/staff</code>	password <code>pas123</code>
Guests	<code>book.atmos-steam.com</code>	no login — open to public

Each tablet asks for its password **once**, then stays signed in forever. Change a password and the tablet will ask once for the new one.

What you do in admin

1 Plan the day (*Events → Schedule → Calendar*)

- Calendar opens on **today (Bali time)** — green "Today (Bali)" tag at the top of the day pane.
- Pick a date → click **Add session** → choose time, duration, capacity, Steam / Massage → "once" or "repeats weekly".

- For recurring rules use the **Templates** tab.

2 Limit how many sessions one guest may book that day

Same day pane → **Per-guest limit** card → **Edit**.

- Defaults: Steam = 2, Massage = 5.
- Override for one specific date (festival day → 4; quiet day → 1).
- Whatever you set here appears in the guest app as *"Based on today's flow, you can book up to N individual sessions."*

3 Set or change tablet passwords (*Events → Settings → Tablet passwords*)

- Two fields: Reception password, Scanner password.
- Saved → tablets ask once for the new one. Done.

What guests do

Guest opens `book.atmos-steam.com` on their phone (or scans the QR poster):

1. Picks a slot — **only today's sessions are shown**, no booking ahead.
2. Enters email + name.
3. Gets a QR code on the screen **and** by email.

Returning guest on the same phone sees a **"Your bookings"** banner at the top with one tap to reopen the QR.

At the entrance (door scanner)

Tablet at `book.atmos-steam.com/staff` · password `pas123`

- Camera opens → point at the guest's QR.
- Result colors:
 - **Valid (green)** — let them in
 - **Wrong time** — too early / too late
 - **Already used** — QR was scanned earlier
 - **Cancelled / expired** — not allowed

At the front desk (reception)

Tablet at `reception.atmos-steam.com` · password `pass123`

- See the **full day** — every slot with the guests on it.

- **Add walk-in guest** to any slot with free space (name required, email optional).
- **Cancel** a guest's booking (X button → confirm Remove).
- Search by name / email / code in the top bar.
- Switch Steam ↔ Massage tabs.
- Use ← / → to look at tomorrow / yesterday.

See all bookings (for reports & history)

Events → Bookings in admin:

- Filter by date, status, service, email.
- Click a booking → full timeline (created → confirmed → entered).
- Export everything to CSV.

Quick "where do I change X?"

TASK	WHERE
Add / move / delete a session	Events → Schedule → Calendar → click day → Add session / Edit slot
Today's per-guest limit	Events → Schedule → Calendar → day pane → Per-guest limit · Edit
Cancel a booking	Reception portal (X next to guest) — or admin Events → Bookings → click → Cancel
Add a walk-in	Reception portal → Add walk-in guest
Change tablet passwords	Events → Settings → Tablet passwords
Branding (name, location)	Events → Settings → Branding
Email sender / domain	Events → Settings → Email (Resend)

TIME ZONE

Everything runs on **Bali (Asia/Makassar)**. The admin calendar always tells you the Bali day so you don't accidentally schedule a session for "yesterday".
